PCO
URETHANE

MEMBER OF MOLDED DIMENSIONS GROUP

40 years in business

Over 30,000 custom Sku's produced

70,000sqft production facility

In House Engineering & Design

Machine casting capabilities

Handcast capabilities

Finishing and Secondary ops

R&D, Engineering and Prototyping

In House Engineering and Design

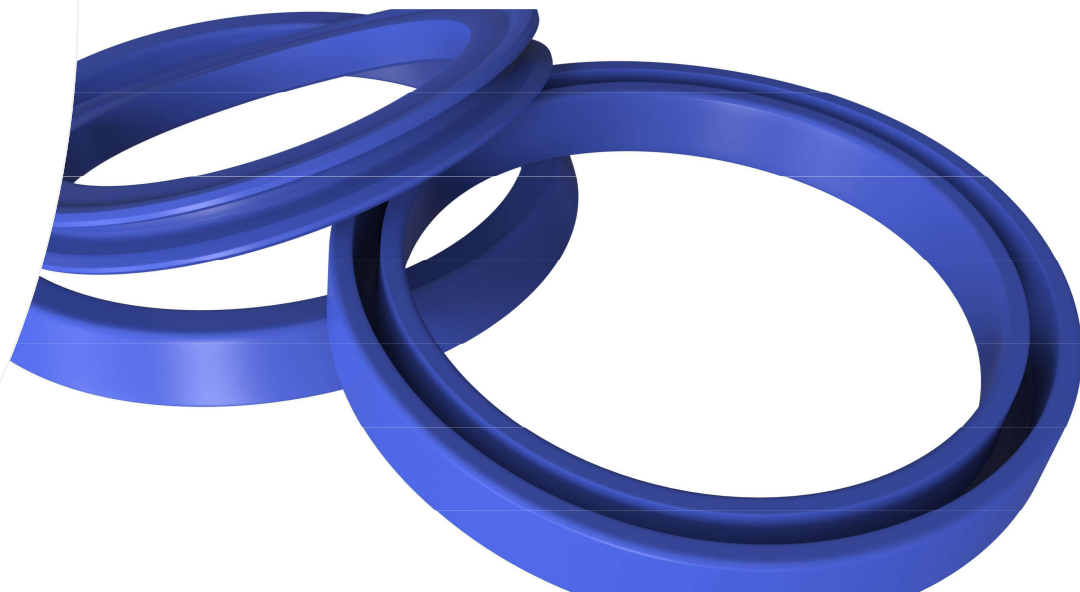

In house tool production and mold work

In house machine shop with full range of milling and turning capabilities

Small Batch prototyping

Machine Cast

- **Medium volume runs**
- **High Volume runs**
- **Capable of doing 20g to 3000lbs**
- **Sweet spot is 100g to 25lbs**
- **Multiple pouring machines both automated and manual**
- **Multiple resin and curative systems supported**
- **30A to 80D hardness**

**MOLDED

We make the difficult part easy

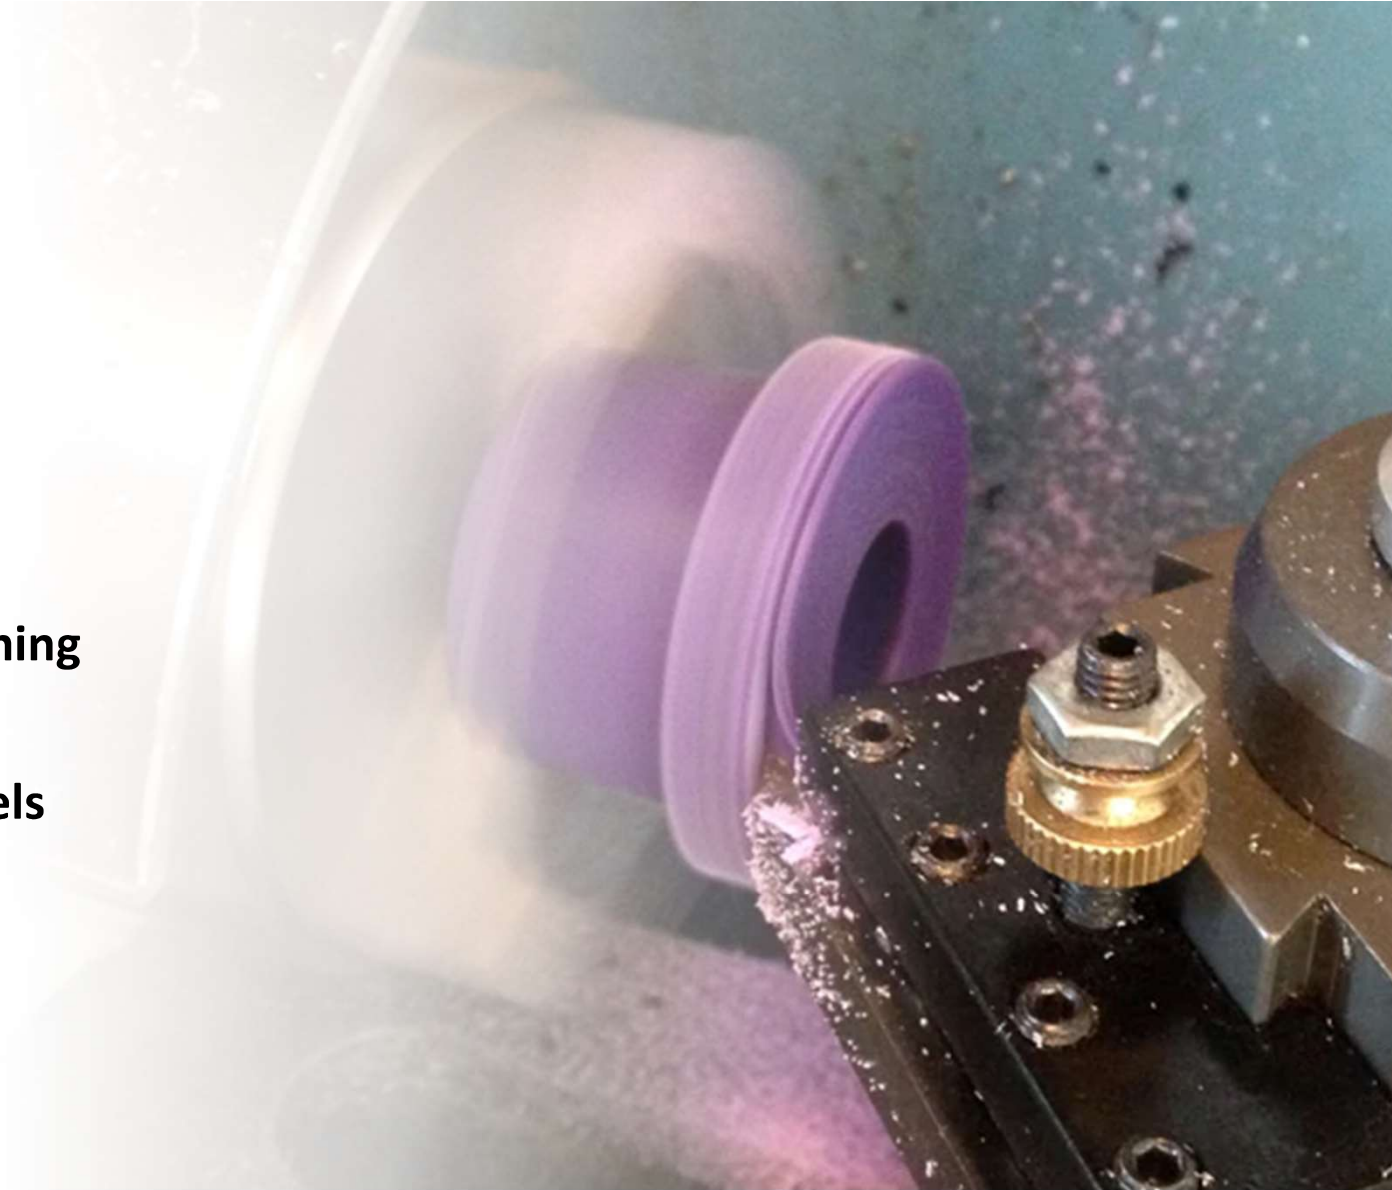

Handcast

- **Prototype/R&D Parts**
- **Smaller Runs or complex parts**
- **Multiple handcast stations**
- **30A to 80D hardness**
- **FDA capabilities**
- **Sweet spot is 25g to 600g**

Secondary and Finishing work

- Full range of finishing capabilities
- Turning, grinding and trimming
- Kit assembly
- Bearing installation in wheels and rollers

Armadillo Pipe

- Made to Schedule 80 Pipe Dimensions
- 2" to 10" Diameter
- Available in 10' lengths
- Elbows, Flanges and Couplers available in all sizes
- Lightweight, easy to assembly
- 10 Times more abrasion resistant than carbon steel

**MOLDED
